Communications Service Excavating Agreement

The undersigned property owner hereby authorizes the installation of communication cable and equipment by Burlington Telecom, a department of the City of Burlington, on his/her property for future service connection. For the purpose of this agreement it is understood that the installation of service cable or equipment **in no way obligates** the property owner to change or accept communications service from Burlington Telecom.

Burlington Telecom will coordinate all public facilities (Telephone, Electric, CATV, Gas, Water & Sewer) to be marked with paint from the Right-of-Way to the home or business. Any **private** utilities such as lighting, electric, or gas to outbuildings, will not be marked. In the area provided below please provide a sketch of any private facilities that may exist on the property. Burlington Telecom will work in good faith with the property owner and act responsibly to repair facilities damaged by its hand.

Date

Property Owner(s) Names

Property Owner(s) Signatures

Street Address

Please provide a detailed sketch of **private** underground facilities on your property such as septic, well, gas, water, electric, and telephone lines. If you have any questions about this call 865-7529.
