| Poto this - | | < | |

Step 3 - You will now be prompted to scan a QR code. Locate and scan the QR code on your GigaCenter to continue.

Step 2 - Once downloaded, open the app. You will be prompted to sign into the app using either your Facebook account or your Google account.

Step 4 - Once scanned, the app will bring you to the home page.

HOME / GUEST NETWORKS

Step 1 - To setup and/or make changes to your home network or guest network, select the respective button on the home screen.

| Welcome | | |
|-----------------|--------------------------------|--|
| Users | Devices | |
| Home Network | Guest Network | |
| Access Policies | ((၇)) ျာ Traffic Monitor | |
| • | • | |
| III C | > < | |

Step 2 - Here, you will have the option to set the name, password, and status of your home network.

| | | 92% 🗋 |
|-------------------|--------------|-------|
| к Н | lome Network | Don |
| | QH | |
| Sync Wireless | Radios | |
| 2.4 GHz and 5 GH; | z Wireless | |
| Active | | |
| Name | CXNK0060D65F | |
| Password | | © |
| | | |
| | | |
| | | |
| | | |
| | | |

Step 3 - Similar applies for Guest Network. Guest Network allows for separate 2.4 GHz and 5 GHz settings.

| | | 92% |
|------------------|--------------------|------|
| | Guest Network | Done |
| | | |
| Sync Wireles | s Radios | |
| 2.4 GHz Wireless | | |
| Active | | |

| Password | •••••• | © |
| 5 GHz Wireless | | |
| Active | | |
| Name | 5GHz_Guest60D65F | |
| Password | ****** | © |
| | 0 | < |

Step 4 - Once all desired changes have been made, select the "Done" button in the top left corner.

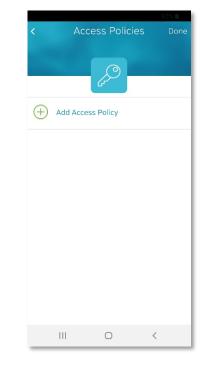

ACCESS POLICIES (Parental Controls)

Step 1 - To alter/setup access restrictions for specific users, tap the "Access Policies" button on the home screen.

Step 3 - Here, you will be able to create a schedule of restricted Wi-fi days, times, and durations.

| | | 51% 🗎 |
|--------------|-----------------|-------|
| < | Add Policy | Done |
| | L.C. | |
| Ent | ter Policy Name | |
| Days of Week | | > |
| Start Time | 00:00 AM | |
| End Time | 00:00 AM | |
| | | |
| | | |
| | | |
| | | |
| | | |
| 111 | 0 | < |

Step 4 - Click "Done" when completed.

NOTE - To add this policy to a specific user, tap the "Users" button on the home page, and select the user to which the policy will apply. Hit "Edit" in the top right corner. Select the "Policy" option, then select which policy you want to apply to that specific user. Hit "Done" when complete.

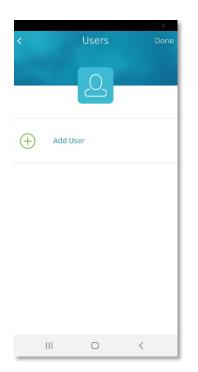

For first time User setup follow steps on the next page.

Step 2 - Tap "Edit" then "Add Access Policy"

USERS

Step 1 - Click the "Users" button on the home screen. Then, select "Add User"

Step 3 - Select "Add Device" - a list will generate of all devices connected on the network. You can now select which devices to associate with each user.

| < | Add Us | ser | 92% Done |
|-----------|------------------|----------|----------|
| | _0_ | | |
| | Enter User or Gr | oup Name | |
| \oslash | Deny Access Now | | • |
| P | POLICY | | > |
| (+) | Add Device | | |
| | | | |
| | | | |
| | | | |
| | III O | < | |

Step 2 - Enter the name of the User or Group. If applicable, select the policy for the user.

| < | Ac | ld User | Done |
|-----------|-------------|-------------|------|
| | | 0 | |
| | Enter User | or Group Na | ame |
| \oslash | Deny Access | Now | |
| P | POLICY | | > |
| (+) | Add Device | | |
| | | | |
| | | | |
| | | | |
| | 111 | 0 | < |

Step 4 - Once the user's devices have been added to their profile, click "Done".

NOTE - Wi-Fi access for each user can be toggled on or off by the switch directly under the user's name. Devices can be added or removed from a user's profile by hitting the "Edit" button in the top right corner.
